WORK EXPERIENCE

Software Developer
Itingineer LLP   *11/2023 – Present*

- Collaborated with cross-functional teams to integrate frontend with backend services.
- Utilized AWS Amplify for serverless architecture and backend integrations.
- Contributing to the implementation of eco-conscious design principles and best practices.
- Actively involved in the development and optimization of frontend architecture.
- Utilized AWS services such as S3 for storing images and optimizing data management processes.
- Integrated RESTful API endpoints to facilitate seamless communication between frontend and backend systems.
- Contributed to the development of scalable and efficient frontend architecture using React.js, typescript, AWS Serveless, open-spec-api and Material-UI.
- Worked closely with UX/UI designers to ensure a visually appealing and intuitive user experience.
- Participated in agile development methodologies including daily stand-ups, sprint planning, and retrospectives.
- Actively engaged in code reviews, testing, and debugging to maintain high-quality code standards.

Software Developer
Ayletec   *02/2023 – 10/2023*

- Developed newsletter functionality to share news with mobile app users. Utilized S3 to store images.
- Created the Broadcast page for sending broadcast messages to all users.
- Designed and implemented the User Management page for creating, editing, and deleting users.
- Developed API endpoints for all pages.
- Contributed to backend development using AWS Serverless architecture.
- Collaborated in creating newsletter and broadcast functionalities.
- Wrote integration tests for all pages Created reusable UI components with Material-UI to ensure a consistent look and feel.
- Engaged with backend services, ensuring efficient data storage and retrieval through RESTful API endpoints.

Frontend Developer
Glasswall Solutions   *11/2022 – 01/2023*

- Contributed to react application built to clean malware files at large scales using nextjs, mui, and react hooks.
- Created react components using hooks and Mui component library.
- Created rest endpoints using openapi specification.
- Used react testing library to create robust application.
- Wrote unit test for composite components.
- Wrote integration test for whole pages.
- Participated in daily scrum calls and sprint planning.
- Contributed to user experience of upcoming projects.
- Used figma to collaborate with user experience teams.
- Used azure devops to update the sprint board and daily updates.
- Used github and azure devops to management code.
- Used pipelines to build and deploy code to production.
- Public facing application - https://cleanroom.glasswall.com/

Web Developer
Express Pharmaceuticals Private Limited   *08/2021 – 10/2022*

- Hired to assist with the digital transformation for the successful pharmaceutical business.
- Assisted in marketing effort of bug fixes on the main website.
- Assisted in creating an internal app for cataloging the imported pharmaceutical items using React.
- The catalog app will be accessed by the 50 to 100 partners across the globe to learn about the new medicines available in the market.
- A catalog with 100s of medicine available for Asian and south Asian market.
- The catalog app would have the appropriate marketing material of the pharmaceutical items.
- Implemented functionality to create a request form that would give users a way to request new items available in the market.

Web Developer Internship
Episodic labs   *03/2021 - 06/2021*

- Created a web automation tool to pull out the cricket player information from the internet used puppeteer to scrap the information like teams, club's player name and other granular information about the players in USA.
- Using the same tool scraped the information of the same players working reputable organization from LinkedIn website to generate quality leads.
- Out of 10,000 players, liaising with sales and marketing team we were able to convert 10% as paying customer for the product sold in USA.
- Technology used: JavaScript, html, CSS, NodeJS, puppeteer and others.

EDUCATION

Bachelor of Computer Application   **8.9 CGPA**
C.U. Shah University , Surendranagar(07/2019 - 05/2022)
